

# 2020 GSA Awards Virtual Ceremony

May 11<sup>th</sup>, 2021, 14:00 - 15:00h CEST | Free Livestream + Q&A  
[gsaawards.org/ceremony](https://gsaawards.org/ceremony)

In 2020, the following institutions and individuals were honored with the 2020 GSA Awards:

- Queensland Health, Australia
- Sepsisfonden, Sweden
- The African Research Collaboration on Sepsis (ARCS)
- David Carlbom, United States
- James Karugaba, Uganda

However, due to the current worldwide pandemic, they have never received the recognition they deserve - this event will change this, honor the awardees, and allow them to present their inspirational projects and initiatives.

Participation is free for up to 500 people, and the event will be recorded and made available to rewatch at a later date.

The Global Sepsis Awards, kindly sponsored by the Erin Kay Flatley Memorial Foundation, honor outstanding efforts to increase sepsis awareness and raise the quality of sepsis prevention and management across the globe.
